Saline County CARES
Non-Profit Business/Organization Relief Program
Phase IVb. Guidelines & Eligibility

Saline County has received $2,670,320 from the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to provide economic relief funds for reimbursement of necessary expenditures incurred by entities throughout the county due to the COVID-19 Pandemic. In accordance with Federal guidelines, as announced previously, your Saline County Commission has been working diligently to develop a process to determine a fair and equitable manner to distribute funds for reimbursement of COVID-19 expenditures to eligible entities within the County.

After careful consideration, it was determined that the relief funds will be distributed in phases throughout the reimbursement period with Phase IVb. consisting of using a portion of the funds received to provide reimbursement of COVID expenses to non-profit businesses and organizations that have been affected by the pandemic.

The Commission recognizes the severe negative impact that COVID-19 has had on all non-profits within the County. In order to assist non-profits during these difficult times, the Commission has chosen to establish the Saline County CARES Non-Profit Business/Organization Relief Program which will provide up to $25,000 in reimbursement of eligible expenses to non-profit businesses and organizations.

PROGRAM GUIDELINES

An application process has been developed to determine eligibility in accordance with federal guidelines for receiving funding through this program. To seek funding the Applicant shall submit the County adopted application form in a timely manner. The application for funds shall include a description of the expenses incurred and services and materials purchased by the applicant, along a receipt for payment. Reimbursement shall only be available for expenses incurred by the applicant from March 1, 2020 through December 15, 2020 with Phase IVb. initial funding covering the period of March 1 through June 30. The requirement that expenditures be incurred “due to” the public health emergency means that only eligible expenditures incurred for actions taken by the business to respond to the public health emergency during the grant period dates will be considered for reimbursement.

The applicant may only seek funding that is permitted for reimbursement meeting the federal and state laws and guidelines prescribing the criteria and conditions governing the distribution of COVID-19 funds and the County’s requirements. Funds available from the County are limited in amount and not all eligible expenses may be funded for reimbursement. Funds will be allocated to eligible and qualified non-profit businesses and organizations based upon availability.

Applications will be reviewed after receipt for eligibility along with the required documentation. Only those applications deemed to be complete and eligible will be processed and considered for funding.

The County has designated the County Commission as the coordinator of the COVID-19 funding program for the County, and such officials shall make the final determination of eligibility and reimbursable amounts under the
designated specified criteria. If the Applicant disagrees with a denial of any requested funds, the Applicant may appeal the decision to the County Commission in writing within five (5) business days of the denial. Such appeal shall set forth the rationale for the appeal. By submitting an application for program funds, the Applicant is agreeing to hold the County and its agents harmless from any and all liability arising out of the administration of the COVID-19 funding program by the County.

**PROGRAM ELIGIBILITY**
